

Tracking Parkinson's

(also known as the P_{Ro}BaND study)

Would you like to help with a research study in
Parkinson's disease?

Have you been diagnosed with Parkinson's within the last 3
years?

or

Were you diagnosed with Parkinson's before your 50th
birthday?

We are currently recruiting patients aged between 18 and
90, who can answer YES to one of the questions above, to
the Tracking Parkinson's research study

The study is being conducted across the UK and will give
us a better understanding of the mechanisms of
Parkinson's Disease
and help us to develop new treatments in the future

For more information and to join the study, please contact
[add local contact details]

Tracking Parkinson's is funded by Parkinson's UK
