Subject: IRAS PROJECT ID 70980, REC Reference 11/AL/0163 : Acknowledgement of end of study
Date: 19 April 2023 12:14:47

Dear Chrissy,

Study title:

**PRoBaND: Parkinson's
Repository of Biosamples and
Network Datasets: Prospective
observational study of
Parkinson's disease with repeat
clinical assessment and
biobanking of blood samples.**

REC reference:

11/AL/0163

Protocol number:

52504/1

EudraCT number:

None

IRAS project ID:

70980

Thank you for sending the declaration of end of study form, notifying the Research Ethics Committee that the above study concluded on 31 December 2022. I will arrange for the Committee to be notified.

A summary of the final research report should be provided to the Committee within 12 months of the conclusion of the study. This should report on whether the study achieved its objectives, summarise the main findings, and confirm arrangements for publication or dissemination of the research including any feedback to participants. This final report should be submitted using the webform available found [here](#). Any Final Reports received via other methods will not be acknowledged.

Samples may be held after the end of study date for quality checking or verification of the research data. This should be for a defined period of time as set out in the protocol and should be for no longer than 12 months. After this period, legal authority to hold any 'relevant material' on premises which are not licensed by the Human Tissue Authority will expire (in England, Wales and Northern Ireland only - this requirement does not apply in Scotland). To ensure any continued storage of 'relevant material' for this project is lawful (in England, Wales and Northern Ireland), either the tissue must be held on premises with a storage license from the Human Tissue Authority, or a new application made for another project before the favourable ethical opinion of the existing project expires. Otherwise the tissue will need to be disposed of in accordance with the HTA Code of Practice and Standards on Research (Code E).

11/AL/0163 Please quote this number on all correspondence

Yours sincerely,

Ruth Hood
